NUMBER 43.
OCTOBER 27, 1905, NORWAY AND SOUTH PARIS, MAINE.
VOLUME XXXVI.

David W. Frost.
David W. Frost, who died in Norway, Oct. 12, last, was born on the Russell Farm, July 12, 1825. He married Vesta, daughter of Ephraim Jr. and Polly (Stone) Briggs, and settled on the homestead of his father-in-law, where he passed the remainder of his life. His wife was born Dec. 26, 1834.
Mr. Frost was a descendant of George Frost who came from England to America, and settled in Massachusetts. The line of descent is as follows: George, William, James, of Berwick, Nathaniel, of Gorham, David, who came to Norway, late in life after four of his sons, John, Robert, Peter and William, had settled on or in the vicinity of Frost Hill. Two of his daughters, Nancy, who married Zachariah Weston, and Eunice, who married Samuel Andrews, also settled in Norway. Robert was the father of David W. Frost, William Robert Jr. and Charles, well known citizens of Norway, were his brothers. Robert Frost sr. married Betsy Jordan, of Otisfield. He came to Norway in 1803. All of these Frosts are noted for their honorable dealing, thrift and good judgment. They were good citizens and always had the respect and confidence of all who knew them.
When David W. Frost went to live on the Briggs place, the buildings were located at the top of the hill, to the northward of where they now are, the house being on one side of the road and the barn on the other. Mr. Frost, for great convenience, moved them down the hill to the corner of the two roads. It took forty fine pairs of oxen to do it, and Isaac N. Small hosed the affair. Another house stood there before that, in which Rev. Charles Soule resided for some years. This house was moved into the village and is now after having undergone some changes, situated on the corner of Main street and Bowdoin street, and owned by Mrs. W. S. Cordwell, formerly by Winthrop Stevens.
The forty yoke of oxen did not quite get the buildings onto the spot designed for them and they were moved by rollers into place.
Ephraim Briggs bought this farm of one of the Pikes, presumably Dudley, who was his nearest neighbor on the north. He was born in Bridgewater, Mass., Nov. 4th, 1782, and when a small boy lived with the Shaker colony in New Gloucester. When he became twenty-one he left and soon after married Rachel Allen. He finally came to work for Capt. Henry Rust and afterward purchased the farm, which subsequently came into the possession of David W. Frost. His wife died and he married Polly Stone, of Waterford. Vesta Briggs was the oldest child born of this marriage. She is a very intelligent woman and well informed in matters pertaining to ancient local history. Mr. Briggs was a good farmer and always had an abundance of corn even when his neighbors had their corn crops out by frost. In 1816, the corn crop was so little was raised, Mr. Briggs had plenty of corn for himself and also to sell to his neighbors. Much of the land slopes toward the south and the soil produces crops early.
David W. Frost was a first class farmer, an excellent citizen and an honest, upright man. His word was as good as his bond. He paid a hundred cents on the dollar acquired a competence and with his good wife brought up a family of four boys and a girl, who survive him.

He is a son of John Downs, of Dixfield, is 17 years old and has spent most of his time lately in Lewiston. Downs stoutly affirmed his innocence and contrary to former reports he has not implicated anyone in this case. The principal clue that connected Downs with the case was a hat found the morning after the break in the alley back of Brooks store. A young man named Fuller, of Lewiston, says he gave this hat to Downs. Downs admits receiving a hat from Fuller, but declares this is not "the one."

But a short distance from the fence they found a pile of leaves and other stuff, with the corner of a green suit case sticking out of it. Deputy sheriff F. E. DeCoster, was notified and the goods brought in. The goods were about two thirds of the missing stock. In the suit case, the property of Arthur C. Shurtleff which had been taken, were all the cameras, two or three, a salt bag stolen from the ice room, contained a hundred or more of the knives; a gun case contained a number of small articles, a hand bag with twenty-eight fountain pens, a dozen more being missing, and a game bag was filled with the cartridges, but about as many more are missing.

Bereft.

Oh crimson leaves, oh leaves of gold, torn from the bough that gave you birth, down 'midst the worthless things of earth, to be the things of little worth, oh crimson leaves, oh leaves of gold.

Bright leaves of gold, fair crimson leaves, there are hopes we've cherished as bright and as ever the gayest of that grieves.

For the lone bough brown in the upper air, and a heart bereft and as lone and bare.

As the brown branch stripped of its autumn leaves.

The leaves not rot in the leafy mold, their brightness faded, their beauty dead, as hopes must perish, and hearts grow cold, when the dreams and sweetest of life have fled.

The leaves lie cold in their moldy bed, while the heart and the bough bereft grow old.

Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure a deafness, and that is constitutional treatment. Deafness is caused by inflammation of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed. It is not cured by anything but an inflamed condition of the Eustachian tube.

Wardwell-Stone.

Monday Evening's Wedding at the Wardwell Home a Happy Event.

One of the pleasantest of social occasions was the wedding which was solemnized Monday evening, Oct. 16, at the residence of the bride's parents, Mr. and Mrs. L. F. Wardwell on Main street, Oxford. The contracting parties were Edward Leland Stone and Nina Gertrude Wardwell. Every room of the beautiful home was festooned with ferns, autumn leaves and graceful sprays of smilax, and the parlor was indeed a bower of bloom and radiance. The piano, the chandelier, every available place, was laden with flowers.

Both bride and groom are graduates of Oxford high school and their musical talent is of a high order. Lovely indeed looked the bride, attired simply in silk muslin trimmed with lace. She carried a bouquet of pinks. The ceremony was performed by the Rev. Mr. Chapman, the impressive single ring service was used.

Refreshments of dairy ices, cakes and sweetmeats were served after the ceremony. The bride herself cut the wedding cake and distributed its magic pieces among her guests in the traditional manner of old. In a room adjoining the parlor were many beautiful and costly gifts of glass, fine linen, silver and gold, also a well-filled purse. There was a handsome set of bed linen, hand wrought, and a cake basket of solid silver, gifts of the grandparents in far-away Idaho, an exquisite gem in oils from the brush of Mrs. Georgia Wardwell, an unique willow chair, the gift of Mrs. L. M. Keith and a cozy rocker from Mrs. George H. Jones.

Tuesday morning Mr. and Mrs. Stone left amid showers of rice for a short wedding tour. They will be at home to their many friends after Oct. 25d.

FRYEBURG CENTER.

Grange Meeting.

At the last meeting of Fryeburg Grange the literary program consisted of reading of clippings by all present. A reading, The Old Man at the Fair, was given by sister M. A. H. A discussion of the question, Are the farmers benefited by the farmers, was next on the program. Nearly all were of the opinion that the members of the society should contribute from their farms to fill the hall, while some thought that the midway attractions were taking too much money from the people. Others saw no harm in them inasmuch as they never patronized them. A reading, The Fault-Finder, was given by Sister Rosina Walker.

The next meeting will be held in the afternoon of November 4th. A dinner gotten up by the men will be furnished at noon. The question for discussion will be, What can be done by farmers in this locality to develop the resources of their farms in the most profitable manner.

Some Information Wanted.

I want to get information regarding native grown "ginseng." I am informed that it grows wild in the woods in this county or in some section of this State. "Ginseng hunters" are known in New England. I know of one in New Hampshire that makes fair money each fall digging it.

It's something of a business—I want to know about it.
You can get a barrel of information from the garden cultivators of ginseng—popularly styled the ginseng gold-brick crabs of the Middle States. This I care nothing for. I want to know if ginseng is found in a wild state in this vicinity, and in what sections of this State. Write me.

Supreme Judicial Court.

October Term, 1905.

The case against Ralph L. Young was on trial as we went to press last week. The defense was that the shooting was purely accidental. There was no evidence to show that the very best of feeling between the boys. In rebuttal of Lewis Hillman's statement that Young raised the gun to his shoulder, brought back the hammer and pulled the trigger, Young testified that he was carrying the gun under his right arm, one of the boys spoke to him and he turned, laying the gun on his left arm when it went off. Examination of the gun showed that it would not stay cocked and that the spring was so stiff it required a strong pull to raise it. The case went to the jury about three o'clock. They came back for instructions and about six returned a verdict of not guilty.

In the appealed case of Frank Cloutier for illegal transportation, a nol pros was entered. In a similar case against Edmund Tardiff a demurrer was filed which the court sustained, discharging the respondent.

Nol pros was entered in the appealed case of Charles M. Sewall for assault and battery, appealed case of Aaron A. Beas, assault and battery, appealed case against intoxicating liquors, Phineas W. Curtis, claimant, and the liquors ordered returned.

Albert Wentworth retracted his plea of not guilty in the appealed case, Fryeburg Municipal court for malicious mischief in stealing a boat, and was fined \$10 and costs of \$15.

Frank Knox of Fryeburg pleaded guilty to the indictment for liquor nuisance and paid a fine of \$100 and \$300 costs. Camille Fountain for a similar offense was sentenced to 60 days in jail.

On an indictment for breaking and entering the store of J. W. Bennett at Gilead and the larceny of \$10 worth of goods, James Deconator alias James Russell pleaded not guilty. A jury was impaneled, and a discussion between counsel and parties, a nol pros was entered as to breaking and entering, and Deconator pleaded guilty to larceny. He was sentenced to three months in jail.

Mrs. Day is the widow of William C. Day, the other two respondents are her sons. The house they were accused of setting fire to is the one occupied and owned by them at Ridgelyville. The fires occurred June 23. About half past two in the morning fire was kindled in a store room in the cellar, which was put out by the neighbors in a few minutes. Immediately afterward a fire was discovered around the attic stairway, and about the same time a portiere between the parlors burned. These fires were put out and the fire fighters went home.

About an hour later another fire was discovered at the Day house. It was in a closet in a sewing room near the foot of the attic stairs, and also under the attic floor running from one side of the house to the other. These fires were put out and a watchman stationed there. The insurance agents visited the house in the forenoon and in the afternoon the selectmen made their official visit, leaving about three o'clock.

At five o'clock another fire was discovered in the wall of a bedroom on the second floor, which was also put out. The insurance was finally adjusted for \$300.

The contention of the State was that the fires were too remote in location and time to have caught from the one basement fire, also that combustible material was at the starting point of the fires, and at some of the other of these fires was distinctly noticeable, that fire fighters were discouraged in their efforts by the Day boys, who did no work and said it was useless as the house had got to go.

The defense claimed that the fires were easily explainable and that the Day boys had no connection with them. The State's case was finished Saturday night, the defense begun, continuing Monday. Swasey, N. G. Foster and Stevenson were attorneys for the defense.

The case required an evening session. The arguments were begun shortly after seven. The judge's charge was brief and to the point.

The jury retired about 10:30 and in less than an hour returned with a verdict of not guilty. This case completed the business of the court. The customary closing proclamations were made and the longest term of court since October, 1903, was closed after a very busy session of 12 days.

The galling nuptial knot was dissolved in other cases as follows:

Walter E. Frye from Gertrude F. Frye, cruel and abusive treatment.

Charles D. Cordwell from Maggie Cordwell, desertion.

Ernest C. Penley from Carrie F. Penley, adultery.

Frank M. Thurston from Carrie A. Thurston, cruel and abusive treatment. Custody of minor child to father.

Sylvia M. Tripp from Bert M. Tripp, alias Vernon M. Tripp, desertion. Custody of minor child to mother.

Mertie Stanley from Frank Stanley, cruel and abusive treatment.

Edith M. Burgess from Hubert A. Burgess, cruel and abusive treatment.

Sylvia M. Tripp from Bert M. Tripp, alias Vernon M. Tripp, desertion. Custody of minor child to mother.

Sunday afternoon about 3 o'clock, Nathan W. Hazen aged 65 years, shot himself in the head with a revolver, at his home near North Bridgton. He was a veteran of the Fourth Maine Battery in the Civil War, and had been in poor health for some years. He was at the Soldiers Home a couple years returning in June, and had since lived alone in a cottage near the village. He was taken to the Maine General Hospital in Portland, and it is believed he will recover, though the bullet entered his head near the left temple.

Caroline Hersey of Portland, daughter of Hon. and Mrs. Oscar H. Hersey, formerly of Buckfield, was married Oct. 17 to Charles E. Hayes, son of Mr. and Mrs. Mellen Hayes of Farmington. Mr. and Mrs. Hayes will make their home in San Diego, Calif., to which place they have already gone.

WEST PARIS.

Disguised the Oil.

A few days since a young lady called at one of our drug stores and called for some castor oil. While the obliging young clerk, who by the way is a shiner among the girls, was putting up the called for castor oil, the young lady inquired if he knew of anything that would disguise the taste of the oil. After putting up the package he very politely asked the young lady if she would have a soda. His hospitality was accepted and the young lady drank the soda and pronounced it fine. Then the smiling clerk inquired of the young lady if she tasted the oil. "Good gracious," exclaimed the young lady in frank surprise, "did you give me the oil. I wanted it for my mother." The curtain dropped on two blank faces, the young lady shooting for the door and the clerk making a double quick for the back office.

Mrs. Henry Swan is going to give up her house and will go to Bethel to be with her husband. The Cushman house will then be empty.

John Lurvey has been building a hen house and H. Brown is making an addition on the west side of his stable for winter quarters for pullets of which he has about 90. He will also winter 75 hens.

There is a fair crop of winter apples, though not as many as last year. D. C. Churchill had about 90 barrels which he sold on the trees to R. L. Cummings. A. C. Perham had about 200 barrels that he sold to Fred Dunham of North Paris.

D. C. Churchill sold his to a western party. The U. S. T. U. have postponed their two in the morning fire was kindled in a store room in the cellar, which was put out by the neighbors in a few minutes. Immediately afterward a fire was discovered around the attic stairway, and about the same time a portiere between the parlors burned. These fires were put out and the fire fighters went home.

About an hour later another fire was discovered at the Day house. It was in a closet in a sewing room near the foot of the attic stairs, and also under the attic floor running from one side of the house to the other. These fires were put out and a watchman stationed there. The insurance agents visited the house in the forenoon and in the afternoon the selectmen made their official visit, leaving about three o'clock.

At five o'clock another fire was discovered in the wall of a bedroom on the second floor, which was also put out. The insurance was finally adjusted for \$300.

The contention of the State was that the fires were too remote in location and time to have caught from the one basement fire, also that combustible material was at the starting point of the fires, and at some of the other of these fires was distinctly noticeable, that fire fighters were discouraged in their efforts by the Day boys, who did no work and said it was useless as the house had got to go.

The defense claimed that the fires were easily explainable and that the Day boys had no connection with them. The State's case was finished Saturday night, the defense begun, continuing Monday. Swasey, N. G. Foster and Stevenson were attorneys for the defense.

The case required an evening session. The arguments were begun shortly after seven. The judge's charge was brief and to the point.

The jury retired about 10:30 and in less than an hour returned with a verdict of not guilty. This case completed the business of the court. The customary closing proclamations were made and the longest term of court since October, 1903, was closed after a very busy session of 12 days.

The galling nuptial knot was dissolved in other cases as follows:

Walter E. Frye from Gertrude F. Frye, cruel and abusive treatment.

Charles D. Cordwell from Maggie Cordwell, desertion.

Ernest C. Penley from Carrie F. Penley, adultery.

Frank M. Thurston from Carrie A. Thurston, cruel and abusive treatment. Custody of minor child to father.

SOUTH PARIS, MAINE.

Death of Wm. Richardson.

An aged and respected citizen of Greenwood died at the home of A. W. Jackson at South Paris, Sept. 25. He had been in the usual health and was attending the County fair and went to stay with Mr. Jackson over night. While there he was taken suddenly ill during the night of Sept. 21, and after an illness of less than four days died Monday, Sept. 25, at 10 a. m.

The body was carried to the home of C. A. Richardson, where services were held Sept. 27, being just four weeks to a day from the burial of his wife; thus the earthly separation was of short duration.

Deceased was born in Greenwood, Aug. 21, 1836, and was 69 years, 1 month and 4 days old. He was born on the farm, where he spent all his life, was married to Hannah P. Parsons, Sept. 15, 1846. Ten children were the fruit of this marriage, of which but five are living—Abby E., who married E. W. Penley, and Abby E., who married G. W. Penley, at present living at West Paris; G. W. married and lives on the farm adjoining the old homestead; Mary A. married L. M. Tufts and lives at South Paris; Charles A., who married Ida Needham and lives on the old homestead; Asaph J. married Jennie Verrill and lives at Mechanic Falls.

Deceased had been many times honored by his fellow townsmen, having been a member of the board of selectmen for many years, also town treasurer and had served as collector of taxes for several years in succession. No man in town took a greater interest in the welfare of the town than he, being always foremost in town improvement in any and all ways.

It was Captain Bill, as he was familiarly known, who fought to completion the building of the road known as the Bitter of John Gray road, which gave the lower section of the town a way to West Paris without going over Young's hill, as it is known. Later it was the same leader who struggled for six years under adverse circumstances to get the road opened from the lower end of Greenwood to Norway village. Always fighting for the right he was very seldom beaten in the end.

In religion he was a Universalist and lived very near to the Golden Rule, which says do unto others as ye would have others do unto you under like circumstances. In politics he was a life long Democrat and always took great interest in and did good work for the party with which he was affiliated. He was a member of the Norway Grange, and while not being an active working member he believed in the work and was an honored member at the time of his death.

Three brothers and two sisters survive him. The funeral was attended by Rev. Mr. Little of South Paris. The floral offerings were very beautiful consisting of:

Flowers—By the children.
Bouquet cut flowers—Mr. and Mrs. Columbus B. Jones.
Bouquet cut flowers—Mr. and Mrs. E. W. Penley.
Bouquet cut flowers—Mr. and Mrs. L. M. Tufts and family.
Bouquet cut flowers—Mr. and Mrs. L. M. Tufts and family.
Bouquet cut flowers—Mr. and Mrs. L. M. Tufts and family.
Bouquet cut flowers—Mr. and Mrs. L. M. Tufts and family.

After the services the Grange burial service was performed, which was very appropriate, and the body was laid to rest in the neighborhood yard beside his lifelong companion.

The ADVERTISER of the 20th contained a piece on the funny part of the Fryeburg fair. There was another laughable thing that happened there. A family from this place who attended the fair took some small kittens with them to give to some friends they expected to meet there. They had them in a box.

They also had a lunch and a fruit jar of coffee. At noon the coffee and kittens were missing. NORWAY AND VICINITY.
To Save Aged Pines of Eastern States.
An exchange says: "The disappearance of what is known as 'old growth' pine in this country has saddened the heart of many a lover of our forests, and while these monarchs of the woods are not of the size and stature of the giant redwoods of California, they are none the less an interesting feature of our sylvia."
"One of the few remaining tracts in this country has just been explored by a party from Amherst, Mass., and is situated on Pisgah Mountain, just across the Connecticut river from Bellows Falls on the Hinsdale (N. H.) side. Several of these trees have attained the height of 150 feet, and their trunks are limbless from fifty to eighty feet from the ground. These primeval white pines are declared by scientists to be more than a thousand years old, and are still in a healthy condition."

"If the State of New Hampshire cannot secure this tract for a forest reserve, the government ought to do so."
"One of the few groves of 'old growth' pines is in Norway, right in the village corporation. This is the Ordway. These trees are of almost priceless value, for they could never be replaced. The old Ordway grove is the grove now owned by Don C. Seitz of New York and which he bought a few years ago for the purpose of making a park for his old friends of Norway. Norway people have always had these trees and hardly think how valuable they are in their location of nearness to the village. We read of a tree no larger or better than these located in one of the larger cities that when the city wished to remove it paid a damage of \$1,500. In Ordway grove there are from 20 to 50 of these giants. Are they less beautiful because they are located in Norway than they would be if located elsewhere?"

Of Interest to Norway Folks.
A Virginia Hot Springs correspondent says: "Among others of interest at the hotel at Hot Springs, are Mr. and Mrs. J. Allen Townsend, who last week gave a dinner. The sister of Mrs. Townsend, Mrs. H. W. Warner, is having a prominent part in the concluding social exercises of Oyster Bay and in the neighborhood of Glen Cove, where she has presided over a country home since her wedding in the residence of her mother, Mrs. Dexter Hawkins, on Thirty-fourth street, New York, one of the old homes opposite the Waldorf that were torn down. Mr. Warner, at the North Shore Horse Show, drove several of his horses in the ring."

T. B. Doughty, who carries on the town farm, says his light horses pulled the load at the North Waterford fair 129 feet and 10 inches and not 19 feet and 10 inches as reported in the paper.
P. S. Mooney, tailor with Chas. H. Nasson of Augusta, was soliciting orders in town last week. He tells us that J. F. Huntington, formerly in the clothing business here, is now living on a farm near Augusta.
Mrs. Julia O. McAllister of Westbrook has been visiting friends in this vicinity. She has spent some time with Howard McAllister of Paris. He was for some time owner of the ideal laundry at South Paris, and exchanged it for a farm beyond Paris Hill.
Stella and Helen Pike went on the Boston and Albany Triangular Excursion Tour, so called from the route, as Boston through the Berkshire Hills to Albany, down the Hudson river to New York city, and back to Boston on the Fall River Line Steamer, forms on a map a complete triangle. And on the ten days stop over privilege of the tickets, they spent several days in Philadelphia, with friends from Manchester, N. H. Beautiful weather and a most enjoyable tour. They returned to Norway, Thursday.

A petition, which has been circulated by the local school board, asks that the selectmen call a special town meeting to appoint a committee to investigate the cost of building a new high school, to prepare plans for such a building and to report at the annual town meeting, March. It is quite generally understood that the school board favor the building of an edifice which will cost between \$40,000 and \$50,000. As to the matter of location, several most desirable lots have been mentioned as being available and easily accessible. The special meeting is also to discuss the matter of laying pavement on Congress street, this being the business street of the town.

Shooting Accident at Byron.
Monday evening, of last week, Mrs. Elma York, of Gum Corner, took her little girl and a .22 caliber revolver for protection and started down the road in the direction of Hop city, to meet her husband who is working for E. G. Knapp. In passing through the woods near the Beedy place, she heard, or thought she did the sound of some wild animal coming through the woods from the railroad track in her direction.
Catching up her child and hastily cooking her revolver she started rapidly down the road. Her dress dragging over the dead leaves and making quite a noise, she reached around to take it up following her from the rear, when she heard a revolver shot, but thought it was some one else that had fired and went some distance before she found out by a smarting pain and flow of blood that she was wounded in the left leg. Looking at her own revolver she was surprised to find that it had been discharged no doubt when she reached around to pull up her dress. She ran to the house of H. H. Richards away from pain and loss of blood. A physician was at once sent for and arrived in about two hours.
The bullet entered the leg near the top of the shoe, passing down striking the flesh near the outside above the ankle joint.

At the Grand Lodge.

Mrs. Ned Potter of Lewiston was elected Grand Chancellor and Mrs. G. Davis of Biddeford, Grand Vice, for the ensuing term.
G. C. Mrs. Dyer has a little son, Irving Willard, a few weeks old, and as he is the only baby ever presented to the Grand Lodge it was decided that his presence must grace the lodge room, whereupon a body-guard was sent to escort him to the hall and a ten dollar gold piece was presented to him. Miss A. McDonald was chosen committee of presentation.
Dinner was served in the hall by Myrtle Assembly of South Portland. 135 sat down to dinner. The ladies of Cole's church furnished supper.
41 Past Chancellors were obligated. 45 assemblies were represented. Evergreen assembly of Bryant's Pond was represented by Mrs. Albert C. Jackson (nee Wade). The question of consolidation with the Bathone Sisters is still undecided. An entertainment of much credit was furnished by Myrtle Assembly, Wednesday evening.

OPERATIONS AVOIDED

Two Grateful Letters from Women Who Avoided Serious Operations.—Many Women Suffering from Like Conditions Will Be Interested.

When a physician tells a woman, suffering from ovarian or womb trouble, that an operation is necessary it, of course, frightens her.
The very thought of the operating table and the knife strikes terror to her heart. As one woman expressed it, when told by her physician that she must undergo an operation, she felt that her death knell had sounded.
Our hospitals are full of women who are there for ovarian or womb operations!
It is quite true that these troubles may reach a stage where an operation is the only resource, but such cases are much rarer than is generally supposed, because a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after the doctors had said, "an operation must be performed. In fact, up to the point where the knife must be used to secure instant relief, this medicine is certain to help."
The strongest and most grateful statements possible to make come from women who, by taking Lydia E. Pinkham's Vegetable Compound, have escaped serious operations.
Margrite Ryan, Treasurer of St. Andrews' Society, Hotel English, Indianapolis, Ind., writes of her cures as follows:
Dear Mrs. Pinkham:—
I cannot find words to express my thanks for the good Lydia E. Pinkham's Vegetable Compound did me. The doctor said I could not get well unless I had an operation for ovarian trouble. I knew I could not stand the strain of an operation and made up my mind I would be an invalid for life.
Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

A Reliable Remedy for Croup.
With the dry, cold weather of the early winter months, parents of croupy children should be on the alert for ominous symptoms. There is no cause for anxiety when Chamberlain's Cough Remedy is kept in the home. If this medicine is given as soon as the child becomes hoarse or even after the croupy cough has appeared, the attack may be warded off. Mrs. S. Rosenthal, of Turners Falls, Mass., says: "We have used Chamberlain's Cough Remedy for ourselves and children for several years, and like it very much. I think it is the only remedy for croup and can highly recommend it." For sale by Noyes Drug Store, Norway, Shurtleff's, South and West Paris.

BUCKFIELD.
This autumn now, and lovely days are here, the harvest past, the blade is crisp and clear; The yellow leaf is seeking Mother earth. From whence it came, when nature gave it birth.
And as the leaf, so man comes forth to shine in youth, and bloom, when in his harvest time appears, and as the leaf, so man decays, while Nature's rules in dark mysterious ways.
Yes, it is autumn, and the husbandman is getting a fair deal. The apples that were said to be so short are being shipped in quantities; hay, corn and oats, a good production, and corn factories have done a big business. Many teams are coming over the road daily from Turner Center with the product of that factory, "and over and above all the insurance business is booming."

Fads and Fancies.

On an occasion the merits of some edible was under discussion, when one old gentleman claimed he was not fond of the same. Another remarked, "You may learn to like it."

"Hang it," says the man; "I don't want to learn to like it; there are more things now that I like that I can't have and I don't want to add any more."

This was a new idea, and a sound one. Apropos of the above the idea might be carried farther and apply it to fads and fancies, of which the world is full.

One particular fad which has assumed an inordinate growth of late is that of genealogical research, and of this the writer has been gradually drawn into the late years by furnishing information to others who were working along those lines. It is a work that when we become fairly imbued, we wonder why others can't become equally interested, and why others should be so slow to impart information, as is often the case.

No, we would not advise any one who has fads sufficient to occupy their attention, to adopt others, but to act on the principle as set forth by the old gentleman referred to above.

Genealogical research is no tonic to induce peaceful slumbers, not a bit of it, for when we allow ourselves to conjure on any subject, after the shadows fall, which greatly interests us, it is sure to produce insomnia. Some years ago, by request, I furnished data such as I was possessed of for a person, in Massachusetts, and about one year ago another request came, and I gave what I had to a western man and he appeared very grateful, and in return he furnished me with the earlier history of our people. Whether he gave it correctly or otherwise, I know not, but what he obtained from me was largely what had come under my own observation.

Well, since the great ado over the remains of John Paul Jones, (or some old Frenchman), I thought it no more than fair to bring forward the name of one of his men who served under him, that of Thomas Chase. He came from Martha's Vineyard in the early years of 1800, and died in 1844. He was acquainted with Jones three years prior to his service under Jones, I have been informed.

With my natural bent for genealogical tracing came a desire to trace out his ancestry. Calling at the home of the family of a deceased grandson of said Thomas, I found a small black book entitled Seven Seasons (last stuff) and on the fly leaf was printed with red ink, "Thomas Chase's Book, price 8 pence, bought at Plymouth in England, 1778."

This was when he was a military prisoner at Mill Prison. Making further investigations by calling on other kindred I found him well traced back to the arrival of Thomas and his brother Aquila in 1630.

Submitting the same to another relative of literary fame, who has made considerable research, and in reply was informed that that line was gotten up by a man expressly for graft, and when he found he could not victimize the kindred he owned up that it was all a sham. Whether or not I have been made a dupe for the purpose of victimizing the credulous I know not, but one thing is

DR. KENNEDY'S FAVORITE REMEDY
Breaks no Hearts, Excuses no Crimes.

Dr. David Kennedy's FAVORITE REMEDY is not a disguised enemy of the human race; where it cannot help, it does not harm. It is composed of vegetable ingredients and does not heat or inflame the blood but cools and purifies it. In all cases of Kidney troubles, Liver complaints, Constipation of the Bowels, and the delicate derangements which afflict women, the action of Dr. Kennedy's FAVORITE REMEDY is beyond praise. Thousands of grateful people voluntarily testify to this, in letters to Dr. Kennedy; and with a warmth and fullness of words which mere business certificates never possess. It makes no drunkards—excuses no crimes—breaks no hearts. In its coming there is hope, and in its going there is healing. We challenge a trial and are confident of the result. Your druggist has it. ONE DOLLAR a Bottle. Bear in mind the name and address: Dr. David KENNEDY, Rondout, New York.

sure, Thomas Chase of Revolutionary fame I knew, and at the funeral of my maternal grandmother, a sister of said Thomas, in 1840, he remarked on being assisted into the carriage, "I did not think of this forty years ago." I remember it as though it were but yesterday.

I knew, too, his son, Col. Thomas, who represented the town of Livermore six years in succession after the State was incorporated. His family consisted of 19 children. He had a son Thomas with whom I was acquainted who became a preacher and later a lawyer. He had a son Thomas as I have learned and also a daughter, Elizabeth Chase, whose pen name was Florence Percy, later, Elizabeth Akers Allen, well known in the literary world.

Lineage and frauds? Yes, the world is full of them, and having become the ruling passion of those high in the councils of the state and nation, the people seem to have settled down to a supine indifference, accepting the situation as a settled matter.

There are people who for cash will furnish you with a coat of arms and a good and approved genealogical record, while you wait and not being impervious to the wiles of grafters I may have been contributing to these, that victims may be made of the credulous. Who has not heard of the Chase estate in London? Victims were made years ago that investigations might be set on foot, to which I contributed my share and now after the lapse of more than thirty years that number is being renewed and I have had letters from the younger generation in relation to it.

Somebody is hankering for spoils and having come to the conclusion that the time is ripe for a rake they are making a move, but don't be deceived, and strive to be content what you have, rather than to be seduced by the wiles of those who seek your substance.

One remarkable coincidence that occurs in the records as furnished is that Samuel Tilton and family emigrated from Hampton, N. H., to Martha's Vineyard in 1673 and Thomas Chase settled in Hampton, N. H., and married Elizabeth Philbrick in 1642. Their son Isaac was born Apr. 1, 1650, married Martha's Vineyard and in 1875 married Mary Tilton. Whether Hampton, N. H., is a good town to emigrate from or there may be some hidden purpose we know not, but the fact remains that there are peculiar features in connection and the further fact that the Tiltons and Chases all came to Livermore and settled in the early years of 1800 has significance.

But what do we know? We know this that there are state tracks on all roads, hence we can scarcely tell where "we are at." Truly all in vanity.

It is Always the Best.

Pure cocoa of a good quality is of a rich red-brown color. When it is so dark as to appear almost black it is a sure sign that it has been tampered with in the making, or that it was made from cocoa beans of a poor quality. The black color itself does not show strength at all, as some foreign manufacturers pretend; it shows that harmful alkaline additions have been made at some stage of the process, or that the cocoa has been artificially colored with coal-tar dyes or lamp-black. As the powdered cocoa is sold in sealed packages, the simplest and most practical way for the average housekeeper to escape being imposed on is to buy goods bearing the name and trade-mark of a well-known and reputable manufacturer.

The special value of the Walter Baker cocoa lies in the fact that not only is it a pure article with a most delicious flavor, made by a scientific blending of the best beans grown in different parts of the world, but it is ground to an extraordinary degree of fineness, being driven in the last stage through a sieve with ten thousand meshes to the square inch, so as to produce the greatest possible degree of solubility.
